PROFESSIONAL SERVICES WORKSHOP

Jump-Start Technology Planning

Get Better Outcomes Faster with Teachscape

Teachscape's workshops are designed to help schools and districts get the most out of Teachscape tools and achieve improved outcomes quickly. Effective application of technology requires thoughtful planning to ensure it contributes to desired outcomes, which is the focus of the Jump-Start Technology Planning Workshop.

Workshop Description

This guided strategic planning workshop supports district and school leaders to develop and implement a plan for successful use of any of Teachscape's systems:

- Teachscape *Focus* observation training and assessment system
- Teachscape *Reflect* observation and evaluation management system
- Teachscape *Learn* professional learning system
- Teachscape *Advance* talent management system

Whether a district is just getting started with Teachscape tools or wants to improve outcomes using existing resources, this workshop provides participants with an action plan to establish a clear vision and pathway to achieving school and district goals.

Learning Targets

- Assess current use of Teachscape software and apply methods for the school site to achieve sustainable results

- Demonstrate an understanding of the needs of the school and explore methods for addressing those needs

- Identify barriers to sustainable use of the Teachscape system and methods for overcoming those barriers

- Create an action plan to establish and promote effective, sustainable use of the Teachscape system

- Implement the action plan and monitor its effectiveness

Target Audience

- District leaders
- School leaders
- District technology representatives

Workshop Outcomes

Participants will:

- Create an action plan for effective, sustainable use and results using Teachscape software
- Implement the action plan and monitor its effectiveness
- Use learning communities to share best practices

Format

- One-day face-to-face workshop, ongoing online communities, and options for follow-up support (webinars, monthly virtual check-ins, weekly e-newsletter, coaching days)
- Cohort of up to 35 participants

Services Approach

This workshop is a one-day face-to-face session in which participants develop an action plan for getting the most out of Teachscape technology. Participants leave the workshop with a ready-to-implement plan and a learning community in place to share best practices and collaborate throughout plan implementation.

Customized Add-On Services

Additional customized services can be added to the one-day workshop to support a successful and sustainable technology plan implementation:

- **Virtual implementation support.** This can include webinars to convene the learning community on a regular basis and spotlight specific topics to meet customer needs.

- **Additional face-to-face services to support implementation.** This can include on-site train-the-trainer sessions to support the learning community and at-elbow coaching support that is tailored to the customer's needs.

Additional Support Available

- **Task Force Training Package:** Guides a task force with monthly sessions throughout the school year to help meet a specific need for measurable outcomes using Teachscape tools.
- **Learning Labs:** Targeted three-hour sessions to deepen understanding of a particular aspect of the Teachscape system. Includes research exploration, direct instruction, guided practice, and practical application.
- **Coaching Connection Package:** Add-on customized coaching days (on-site or virtual) plus monthly webinars and online collaboration with other districts to ensure effective use of the Teachscape system for measurable outcomes.

Professional Services Providers

Broad Experience. Deep Expertise.

- **School Improvement Consultants** are experienced educational leaders and turnaround specialists who have successfully turned around struggling schools while helping to ensure sustainability.

- **Content Coaches** are proven experts in their areas of academic focus, bringing a deep background of successful content coaching to their work with clients.

- **Data Specialists** are expert in analyzing and applying data to assess student learning and inform instructional practice.

- **Instructional Coaches** specialize in helping leaders identify, promote, and sustain effective instructional practices in every classroom.

- **Leadership Coaches** have all been successful principals, assistant principals, directors of curriculum, and assistant superintendents. Their experience informs their work, helping school and district leaders drive, support, and sustain improved teaching and student achievement.
